

CLASSROOM MANAGEMENT STRATEGIES

Use firm, fair, consistent discipline. Praise good behaviour. Create a positive psychological environment among all members of the class. You will know immediately if a student is doing something unacceptable and use a frown or shake of the head. If the misbehaviour continues, privately tell the student exactly what behaviour you expect and the consequences. Be sure to follow through with the discipline strategy. Make sure every student is busy at the work of learning and the teacher is enthusiastic and inspiring.

Respect. Make sure everyone knows he or she is respected. Be consistent with all students and deal with any problems right away. Establish a presence in the classroom and use proximity to control any challenging student.

To get the attention of the entire class, stand at the front of room, do not speak and raise your hand. Everyone will be quiet very quickly. Expect positive behaviour during every class and keep lessons lively and interesting.

A positive atmosphere is essential in Primary-Junior classroom. Students know that they are expected to make good choices as members of the class. A reward system (such as Pizza Party) is used throughout the year. The students vote on child-directed ideas for the rewards and the teacher ensures that all children win at various times throughout the year. A contract could be used at times. The contract talks about respect and responsibility. Contracts are written in a positive manner and focus on why it is important to be respectful or responsible. Parents are called regularly to report on challenging behaviour as well as positive behaviour.
